微信公众号

公司简介 COMPANY PROFILE

成都金稷丰机械制造有限公司，是一家专注于双螺杆专用中高端齿轮箱设计开发、制造、维修、替换和升级改造，且具备大量成功案例的专业服务商，目前我们维修或原位替换的齿轮箱已覆盖德系、日系等世界知名品牌的大部分机型。

我们拥有技术设计、生产加工、装配制造、售后服务等一批专业队伍，提供齿轮箱维修、替换和升级改造的一站式解决方案，通过最快速的响应、最短的周期和最高的性价比，急客户所急，为客户创造最大的价值。经过我公司处理的齿轮箱，不仅原机故障得到完美解决，而且在齿轮箱寿命、稳定性及性能参数上还能得到最大优化和提升，自2002从事该业务以来客户反响良好，部分维修后的齿轮箱已使用超过20年，且仍在正常使用中。

“技术先行，工匠立企”

金稷丰始终如一地坚守着“技术先行，工匠立企”的企业理念，持续推行“以技术研发为核心，以工匠传承为基石”的发展思路，致力为用户提供高效稳定、品质卓越的核心设备和贴心的服务。

Chengdu Jin Ji feng machinery manufacturing co., LTD., is a focus on high-end gearbox in twin-screw dedicated design and development, manufacturing, maintenance, replacement and upgrading, and have a lot of successful cases of professional services, at present we repair or replace the gearbox of in situ has covered German, Japanese and other world famous brands of most of the models.

we have a number of professional teams in technical design, production and processing, assembly and manufacturing, after-sales service and soon, providing one-stop solutions for gearbox maintenance, replacement and upgrading. Through the fastest response, the shortest cycle and the highest cost performance, we are eager to meet customers' needs and create the greatest value for customers. After our company processed the gearbox, not only the original machine fault has been solved perfectly, but also in the gearbox life, stability and performance parameters can be optimized and improved, since 2002 engaged in this business customer response is good, part of the repaired gearbox has been used for more than 20 years, and is still in normal use.

Jinjifeng always sticks to the enterprise philosophy of "technology first, artisans establish enterprise", and continues to carry out the development idea of "technology research and development as the core, artisans inheritance as the cornerstone", and is committed to providing users with efficient, stable, high-quality core equipment and considerate service.

QUALIFICATION HONOR 资质荣誉

我们是国家高新技术企业、中国塑料机械协会会员单位、四川省创新型中小企业、四川省科技型中小企业，拥有商标及各类专利20余项。

We are a national high-tech enterprise, a member unit of China Plastics Machinery Association, an innovative small & medium-sized enterprise in Sichuan Province, and a scientific & technological small & medium-sized enterprise in Sichuan Province. We have more than 20 trademarks and various patents.

优势及实力 ADVANTAGES & STRENGTH

30+年的行业积淀，全方位的专业团队

自十九世纪八十年代，公司创始人基于塑料挤出机的制造经验和国内外塑料挤出机的应用经验，敏锐地发现了双螺杆挤出机在动力传递和扭力分配的核心技术瓶颈，并开始着力突破这一核心技术——即双螺杆齿轮箱的承载能力、耐用性和稳定性。

始终秉承着创始人的理念，1993年我公司正式开始设计并制造双侧对称驱动齿轮箱，经过三十余年的实践，我们形成了具备自主知识产权的稳定高效、持久耐用的齿轮箱产品，并组建了包含技术设计、生产加工、装配制造、售后服务等在内的一批专业队伍，积淀了丰富的行业经验。

A professional team with more than 30 years of industry accumulation

Since the 1980s, based on the manufacturing experience of plastic extruders and the application experience of plastic extruders at home and abroad, the founder of the company has keenly discovered the core technology bottleneck of twin-screw extruder in power transmission and torque distribution, and has begun to make efforts to break through this core technology - the bearing capacity, durability and stability of twin-screw gearbox.

Always adhering to the founder's philosophy, our company officially began to design and manufacture double-sided symmetrical drive gearboxes in 1993. After more than 30 years of practice, we have formed stable, efficient, and durable gearbox products with independent intellectual property rights. We have formed a professional team with rich industry experience including technical design, processing, assembly, manufacturing, and after-sales service.

Gear transmission technology reaching international advanced level

The gearbox of our company adopts the improved "double-side gear symmetrical drive" transmission technology with international advanced level, which greatly improves the output capacity and output torque of the output shaft, and greatly reduces the force on the output shaft bearing, thus greatly prolonging the service life of the gearbox. It has been proved that our company's technical performance is perfect, and the gear boxes produced by our company are sold all over the world, with an operating life of more than 10 years.

达到国际先进水平的齿轮传动技术

我公司的齿轮箱使用了具有国际先进水平的“双侧齿轮对称驱动”传动技术并进行了改良，该技术使输出轴的输出能力和输出扭矩大幅提高，同时极大降低输出轴轴承的受力，从而极大延长了齿轮箱的使用寿命。实践证明，我公司的这一技术表现完美，运行寿命达到10年以上的齿轮箱遍布世界各地。

品质卓越，稳定可靠，性能优越

除了注重技术设计，我们也高度重视材料选择、齿轮加工和装配等重要环节，致力为客户提供品质卓越、稳定可靠的高转速、高扭矩、高性能齿轮箱。

材料选择上，我们统一选用高强度耐磨材料，以及国际公认、品质一流的瑞典SKF和德国INA轴承；在齿轮加工和装配上，我们专门组建了一支加工和装配队伍，搭配进口高精度精密机床，凭借丰富的实践经验和精准的装配技术，齿轮级精度6级以上，输出扭矩达到国外著名厂家同等水平。

Excellent quality, stability and reliability, superior performance

In addition to technical design, we also attach great importance to important links such as material selection, gear processing and assembly. We are committed to providing customers with high-speed, high-torque, high-performance gearboxes of excellent quality, stability and reliability.

In terms of materials, we use high-strength wear-resistant materials, as well as Swedish SKF and German INA bearings which are internationally recognized, top-quality. For gear processing and assembly, we have a professional processing and assembly team and imported high-precision machine tools. With rich practical experience and excellent assembly technology, the gear precision is above grade 6, and the output torque has reached the same level as that of famous foreign manufacturers.

rapid response, short cycle, high cost performance

Our company has a 7x24 after-sales service team, including a number of after-sales experts who have worked in imported gearbox companies, with an average industry experience of more than 5 years. With a strong after-sales team, rich experience and superb technology, as well as the geographical and cost advantages of domestic enterprises, we can provide you with professional and caring services with faster response, shorter cycle and higher cost performance.

响应快速，周期短，性价比高

我公司专门组建有7x24小时的售后服务团队，包含多名曾有进口齿轮箱企业工作经验的售后专家，团队人均行业经验5年+，凭借着强大的售后团队、丰富的经验和精湛的技术，以及国内企业的地理和成本优势，可为您提供响应更快、周期更短、性价比更高的专业贴心服务。

维修替换服务 REPAIR & REPLACEMENT

自2002年，我公司开始了国外进口挤出机齿轮箱的维修和替换工作，历经二十余年的专注和沉淀，公司已积累了丰富的维修替换经验，特别是具备德系科倍隆、克劳斯玛菲、莱兹及日系日本制钢所、东芝、神户制钢等世界知名品牌齿轮箱的维修替换能力，且维修替换后的齿轮箱性能指标≥原厂水平。

Since 2002, Our company started the maintenance and replacement of the gearbox of the extruder imported from abroad, after more than 20 years of concentration and precipitation, the company has accumulated rich experience in maintenance replacement, especially have Coperion, Kraussmaffei, Leitritz and the Japanese JSW, Toshiba, Kobe and other world famous brands gearbox maintenance to replace the ability, And the performance index of the gearbox after maintenance and replacement can be greater than or equal to the original factory level.

服务范围

德系进口挤出机齿轮箱

我们维修替换的德系进口挤出机齿轮箱，主要有科倍隆、克劳斯玛菲、莱兹等世界知名品牌。

We repair and replace the German imported extruder gearbox, mainly including the world famous brands such as Coperion, Krauss Maffei and Leitritz.

REPAIR&REPLACEMENT CASES 维修替换案例

德系-科倍隆Coperion

我公司维修替换过的科倍隆齿轮箱基本涵盖其各种型号, 无论是ZSK高端系列(40-250) 齿轮箱, 还是STS中端系列 齿轮箱(50-95), 我们都有丰富的维修替换经验和案例。

Our company has repaired and replaced all kinds of Coperion gearboxes, whether it is ZSK high-end series gearboxes(40-250), or STS mid-range series gearboxes(50-95), we have rich experience and cases of maintenance and replacement.

ZSK 250大型齿轮箱维修案例

2013年, 国内某大型化工集团2台德国进口ZSK250齿轮箱发生故障, 导致两条日产140T聚甲醛的生产线停产, 我公司快速响应并在最短时间内成功修复, 仅维修费用就为客户节约了近200万元人民币, 我公司因此成为该集团进口设备的唯一指定国内维修厂商。

In 2013, a large domestic chemical group two German imports ZSK 250 gearbox (single nissan 140 t polyformaldehyde) fails, quick response and my company success in the shortest possible time to repair, maintenance costs alone for clients to save nearly 2 million yuan, Therefore, our company became the only designated domestic repair manufacturer for the imported equipment of the group.

ZSK 320大型齿轮箱维修案例

国内某知名石化企业的进口ZSK320大型挤出机组出现减速箱噪音及振动问题，经原厂和国内其他厂商反复维修多次，历时整整两年仍未解决，导致长期只能低产量运行。我司收到维修任务后立即响应，仅用13天便彻底解决故障，产能恢复正常水平。

The imported ZSK320 large extruder unit of a well-known petrochemical enterprise in China has encountered noise and vibration problems in the gearbox. After multiple repairs by the original factory and other domestic manufacturers, it has not been resolved for a full two years, resulting in long-term low production operation. After receiving the repair task, our company immediately responded and completely resolved the problem in just 13 days, restoring production capacity to normal levels.

ZSK 177大型齿轮箱替换案例

国外某大型石化企业因进口的ZSK177减速机发生故障无法维修，专程到中国委托我司为其制造原位替换减速机，我司组建专业技术团队进行设计制造，并派遣资深装配人员现场指导安装调试，设备开机运行后达到原厂100%产能，得到客户高度赞扬和认可。

A large petrochemical enterprise abroad was unable to repair the imported ZSK177 gearbox due to a malfunction. They entrusted our company to manufacture an in-situ replacement gearbox for them in China. Our company formed a professional technical team for design and manufacturing, and dispatched senior assembly personnel to guide installation and debugging on site. After the equipment started up and ran, it reached 100% of the original factory capacity, which was highly praised and recognized by the customer.

升级改造服务 UPGRADING SERVICE

凭借我公司30+年的行业积淀和大量成功案例，以及强大的技术团队、精湛的制造装配能力和专业的售后服务，我公司可为您提供一对一的升级改造服务，根据您的要求和实际情况量身定制专业的升级改造方案，提高设备稳定性、提升扭矩、降低比能耗、增大产能。同时，凭借国内企业的地理和成本优势，我公司拥有比外企更快速的响应、更短的周期和更高的性价比，是您进行升级改造的不二之选。

With my company for 30 + years of industry accumulation and a large number of successful cases, and a strong technical team, exquisite manufacturing assembly capacity and professional after-sales service, our company can provide one-on-one upgraded service for you, according to your requirement and the actual situation of tailored professional upgrading plan, improve equipment stability, increase the torque, lower energy consumption, increase production capacity. At the same time, with the geographical and cost advantages of domestic enterprises, our company has faster response, shorter cycle and higher cost performance than foreign companies, which is the only choice for you to upgrade.

国外某塑料公司东芝TEM 58BS升级改造案例

根据客户实际情况和特殊需求，我公司将客户原有的东芝TEM 58BS升级更换为与TEM 58SS同等性能的新齿轮箱，在同等电机功率条件下，输出扭矩提升了38%，产能也得到很大提高。

According to the actual situation and special requirements of the customer, our company upgraded the original Toshiba TEM 58BS to a new gearbox with the same performance as TEM 58Ss, Under the condition of the same motor power, the output torque increased by 38% and the production capacity was greatly improved.

广东某塑料公司TE-75机齿轮箱升级改造案例

根据客户实际情况和特殊需求，我公司技术团队量身定制升级改造方案，新齿轮箱在输出转速不变的情况下，适配电机功率增加90%，扭矩随之增加，理论产量指标提升50%以上。

According to the actual situation and special needs of customers, our technical team customized the upgrade and transformation plan, the new gearbox in the output speed unchanged, the adapter motor power increased by 90%, the torque increased, the theoretical output index increased by more than 50%.

浙江某塑料公司享舍儿95齿轮箱升级改造案例

根据客户实际情况和特殊需求，我公司为客户量身定制升级改造方案，在电机功率不变的情况下，新齿轮箱的输出转速降低30%，扭矩增加30%，产量随之增加。

According to the actual situation and special needs of customers, our company tailors the upgrade plan for customers. Under the condition of the same motor power, the output speed of the new gearbox is reduced by 30%, the torque is increased by 30%, and the output increases accordingly.

国内某大型化工厂意大利223齿轮箱升级改造案例

客户原有设备存在运行不平稳、周期性强烈震动等严重问题，导致工艺控制困难，为解决以上问题，我公司对齿轮箱内部进行了升级改造，彻底消除了周期性强烈震动，实现了对工艺的正常控制，目前长期运行表现稳定。

The customer's original equipment has some serious problems such as unstable operation and periodic strong vibration, which lead to the difficulty of process control. In order to solve the above problems, our company has upgraded the inside of the gearbox to completely eliminate the periodic strong vibration and realize the normal control of the process. At present, the long-term operation performance is stable.
